

**LARGE HANG EM UP® HANGER IN ACTION**

# The Magnetic Hanger That Works

Hang Em Up's powerful magnetic hanger is capable of supporting myriad items when attached to steel, iron, and selected stainless steel alloys. It can be used for supporting fire extinguishers, electrical cords, welding leads, tools, lights, cameras, and more on the job site, shop or service truck. The holding power of Hang Em Up will vary with the thickness, slickness, and configuration of the metal surfaces. **Test the holding power before using.**

- Non-conductive
- Marine grade stainless
- Glow-in-the-dark
- Center pivot spins 360 degrees and has detents at 180 degrees
- Four lockable positions
- Hook adjustable for unusual angles
- Reusable
- Rubber foot
- Resists sliding down the wall
- Non-abrasive
- Large hook upside-down creates an enclosure for pipe, electrical or conduit
- Tested to 180 degrees F.** Special handling needed at high temperatures.

TESTED HOLDING CAPACITY		
SURFACE	HORIZONTAL	VERTICAL
1/8 inch ferrous steel, smooth painted surface	71 pounds	35 pounds/31.9 inverted
1-inch ferrous steel unpainted	103 pounds	51 pounds
Cooled to 12 F	no change	no change
